Company Overview

Burra Construction Group (BCG) is a 100% Indigenous-owned construction company delivering high-quality residential, commercial, and civil construction services across Australia.

With over 35 years of industry experience, BCG provides end-to-end construction solutions, combining technical capability with strong project delivery systems.

We are committed to creating meaningful First Nations participation through employment, subcontracting, and long-term economic development outcomes within the construction sector.

Burra Construction Group is positioned to support Tier 1 contractors, government agencies, and private developers in delivering compliant, high-quality construction outcomes with embedded First Nations participation

Why Burra Construction Group

- Experience across residential, commercial, and civil construction environments
- 100% Indigenous-owned with embedded participation model
- Strong operational systems ensuring on-time, on-budget delivery
- Ability to mobilise across urban, regional, and remote locations
- Established networks through NSWICC and Supply Nation
- Flexible and scalable delivery model (ideal for joint ventures and subcontracting)

Burra Construction Group operates with a strong focus on safety, compliance, and quality assurance aligned to Australian construction standards.

Partnership & Delivery Model

Burra Construction Group actively partners with Tier 1 and Tier 2 contractors to deliver large-scale projects.

We provide:

- Indigenous workforce participation solutions
- Subcontracting capability across multiple trades
- Regional and remote delivery support
- Cultural engagement and community connection

As a growing Indigenous-owned business, Burra Construction Group is focused on scalable delivery through strategic partnerships, ensuring capability, compliance, and workforce capacity align with project requirements.”

Our Mission

To deliver construction solutions that support our clients to succeed, while embedding quality, safety, and genuine First Nations economic participation into every project.

Core Capabilities

Construction

- Residential construction
- (houses, multi-residential developments, renovations, garages, prefabricated/modular builds)
- Non-residential construction
- (commercial buildings, fit-outs, industrial facilities, cool stores, portable structures)

Construction Services

- Site preparation and land development
- (demolition, excavation, earthworks, land clearing, subdivision works)
- Civil and structural works
- (concreting, footpaths, curbing, trenching, reinforcing steel)
- Trade services
- (bricklaying, stonework, roofing, on-site construction)

Project Delivery

- Design & Construct
- Construction Management
- General Contracting
- End-to-end project coordination

Capability & Experience

Burra Construction Group draws on over 35 years of combined industry experience across residential, commercial, and civil construction.

Our capability is built through the practical experience of our leadership and delivery teams, with exposure to:

- Residential construction, including new builds, renovations, and multi-residential developments
- Commercial construction and fit-outs
- Civil works, including site preparation, earthworks, and structural elements
- Subcontracting across multiple trades and construction environments

This experience enables Burra Construction Group to confidently support and deliver projects in partnership with Tier 1 and Tier 2 contractors, government agencies, and private developers

First Nations Commitment

Burra Construction Group is proudly 100% Indigenous owned and committed to delivering real outcomes for First Nations people.

We embed this through:

- Prioritising First Nations employment and workforce development
- Engaging Indigenous subcontractors and suppliers
- Supporting long-term skills and career pathways
- Working respectfully with communities across all project locations

Our approach ensures participation is built into delivery — not added as an afterthought.

Experience & Expertise

- 35+ years combined construction industry experience
- Delivery across residential, commercial, and civil sectors
- Strong capability across urban, regional, and remote environments
- Proven ability to manage projects from concept through to completion

Facilities & Operational Footprint

- Access to office, boardroom, and training facilities via NSWICC Hub (Redfern)
- Operational reach across NSW, ACT, and QLD
- Plant and equipment holding yards across multiple locations
- Additional operational presence in:
 - Ulladulla
 - Griffith
 - Wagga Wagga
 - Canberra

Burra Construction is equipped to deliver projects in both metropolitan and remote locations.
